Secura Key Releases Technology White Paper

CHATSWORTH, CALIFORNIA - Chatsworth, California, Secura Key is pleased to announce the release of a new White Paper: "RKDT Dual Technology Proximity Readers and Standalones". This white paper details Secura Key's development of the RKDT (Radio Key® Dual Technology) line of HID compatible readers and standalone units. Secura Key dealers frequently need to upgrade or merge existing systems where HID proximity cards and readers are being used. This paper includes information on Proprietary Protocols, Card Data Formats, Standalone and Wiegand Output Reader Compatibility, and the availability of HID Compatible Cards that work with these new readers.

These White Papers are very useful to systems integrators, OEMs, and Application Developers in both the Security and RFID channels. They are written for an executive level audience.

These Technology White Papers can be downloaded from the Secura Key website www.securakey.com, by clicking on *About* and then selecting *Press*.

Requests for free printed copies of these informative documents should be sent to mail@securakey.com. Secura Key products are available through major distributors of security, access control, locking hardware and gate control equipment.

About Secura Key

For over 39 years, Secura Key has manufactured access control and RFID products, pioneering the use of new card technologies in the security industry. Reader technologies include contactless smart cards, proximity, and other leading technologies. Secura Key's modern card/tag production plant is expert at packaging a wide variety of Access Control and RFID transponders in durable plastic packages, featuring 4-color graphics, custom form factors and encrypted data.

Secura Key's manufacturing plant and general offices are located in Chatsworth, California. Further information on Secura Key is available at www.securakey.com.
