Secura Key Releases Technology White Papers

CHATSWORTH, CALIFORNIA - Chatsworth, California, Secura Key, is pleased to announce the release of two new White Papers: "Radio Key® Technology" and "e*Tag® Technology." These white papers give a detailed description of Secura Key's core Proximity and Contactless Smart Card technologies, including terminology, basic operation, and a detailed description of the various types of readers and credentials available in each technology. These White Papers also explain differences, similarities, and advantages offered by Secura Key as compared to other competing technologies in the market.

These White Papers are very useful to systems integrators, OEMs, and Application Developers in both the Security and RFID channels. They are written for an executive level audience.

These Technology White Papers can be downloaded from the Secura Key website www.securakey.com, by clicking What's New, then selecting White Papers.

Requests for free printed copies of these informative documents should be sent to mail@securakey.com. Secura Key products are available through major distributors of security, access control, locking hardware and gate control equipment.

About Secura Key
For over 35 years, Secura Key has manufactured access control and RFID products, pioneering the use of new card technologies in the security industry. Reader technologies include contactless smart cards, proximity, and other leading technologies. Secura Key's modern card/tag production plant is expert at packaging a wide variety of Access Control and RFID transponders in durable plastic packages, featuring 4-color graphics, custom form factors and encrypted data.

Secura Key's manufacturing plant and general offices are located in Chatsworth, California. Further information on Secura Key is available at www.securakey.com.
