Secura Key Publishes White Paper:
10 Biggest Access Control Installation Mistakes

CHATSWORTH, CALIFORNIA - Secura Key announces a new White Paper: "The 10 Biggest Access Control Installation Mistakes and How to Avoid Them." This White Paper is available on the SECURA KEY website: www.securakey.com.

The White Paper shows how to avoid installation errors that expose the system to electrical damage, how to be prepared for natural or man-made disasters, how to avoid ordering the wrong components, and how to make sure that the installation goes smoothly.

These tips and tricks apply to all brands of access control systems, not just Secura Key. So for some good general advice on Access Control installations, visit the Secura Key website, and look for the link to this White Paper on the home page.

About Secura Key
For over 40 years, Secura Key has manufactured access control systems, cards, keytags and readers. Originally well known for its Barium Ferrite TouchCard™ products, Secura Key now provides software-based systems with proximity technology, and also supplies HF contactless smart card readers and credentials to the RFID industry, as well as UHF cards and keytags. Secura Key also offers in-house custom card manufacturing and 4-color printing in a wide variety of card technologies.

Secura Key's manufacturing plant and general offices are located in Chatsworth, California. Further information on Secura Key is available at http://www.securakey.com.
