Secura Key Hires Ryan Hawkins as Director of Card Manufacturing and Adds New Line of High-Volume Card Production Equipment

CHATSWORTH, CA September 24, 2014 – Secura Key is proud to welcome **Ryan Hawkins** as the newest addition to their staff. Ryan will assume the duties of **Director of Card Manufacturing**, overseeing scheduling, production, printing, and encoding of Access Control, RFID, and high volume card products at Secura Key.

Ryan joins Secura Key with 10 years' experience in Card Production, most recently as Owner/Partner at Phoenix Card Services. Before that, Ryan worked in Card Production and Technical Sales for CPI Card Group in Las Vegas, NV. Previously, Ryan worked in the printing industry, managing printing and production scheduling for magazines and publications. Ryan is currently completing his MBA degree.

Concurrent with the hiring of Ryan Hawkins, Secura Key has acquired a new line of high-volume card production equipment, including a state-of-the-art large-format laminator and two high-speed Class A die cutters. The acquisition complements Secura Key's existing card production capabilities and allows Secura Key to provide quicker manufacturing turnarounds of high-volume custom-printed cards and keytags. This includes the manufacture of HF, UHF, Magstripe, barcode and multiple technologies, for applications such as loyalty, school, hospitality, library, membership and transportation.

Secura Key's VP of Sales & Marketing, Charlie Anthony stated: "We are truly excited about having Ryan Hawkins on board. His production expertise coupled with the potential of our new card production line immediately enables Secura Key's customers a greatly expanded turn-key resource for their custom card manufacturing requirements."

About Secura Key

For over 40 years, Secura Key has manufactured access control and RFID products, pioneering the use of new card technologies in the security industry. Reader technologies include contactless smart cards, proximity, and other leading technologies. Secura Key's modern card/tag production plant is expert at packaging a wide variety of Access Control and RFID transponders in durable plastic packages, featuring 4-color graphics, custom form factors and encrypted data.

Secura Key's manufacturing plant and general offices are located in Chatsworth, California. Further information on Secura Key is available at <http://www.securakey.com>.
