Secura Key Offers Deeper Discounts on 2-Door Access Control Kits

CHATSWORTH, CALIFORNIA - Secura Key, is pleased to announce that it is now offering significantly deeper discounts for two-door Access Control Kits featuring Radio Key® Proximity readers and cards.

Many Secura Key customers have already realized huge savings by purchasing our e*Access Kits featuring e*Tag® contactless smart card technology. Due to the continued popularity of our reliable Radio Key® proximity technology, we have decided to significantly increase the discount on our SYSKIT1 and SYSKIT2 Proximity Access Control kits. These great 2-door starter kits include our powerful SK-NET™ access control software, the SK-ACP 2-door control panel, a DC power supply, a PC serial cable, 25 RKCM02 rugged clamshell prox cards, and two Radio Key® Proximity readers.

SYSKIT1 includes the popular RKWM mini-mullion readers, which offer wall switch reader performance in a mini-mullion-sized package. SYSKIT2 includes the RKWS wall switch readers, which offer the same read range as competing mid-sized proximity readers.

Secura Key products are available through major distributors of security, access control, locking hardware and gate control equipment.

About Secura Key

For over 38 years, Secura Key has manufactured access control and RFID products, pioneering the use of new card technologies in the security industry. Reader technologies include contactless smart cards, proximity, and other leading technologies. Secura Key's modern card/tag production plant is expert at packaging a wide variety of Access Control and RFID transponders in durable plastic packages, featuring 4-color graphics, custom form factors and encrypted data.

Secura Key's manufacturing plant and general offices are located in Chatsworth, California. Further information on Secura Key is available at <http://www.securakey.com>.
