### ***Secura Key Releases Technology White Papers***

**CHATSWORTH, CALIFORNIA** -Secura Key is proud to announce the release of a new white paper on its NOVA.16 access control panel: ***“Secura Key’s NOVA.16 - Something New for Small Systems,”*** explaining the new system architecture and how it lowers installation, hardware and expansion costs, and also explaining the technology behind the product.

The white paper describes the new system configuration, the more efficient distribution of processing power, how the product was developed, and why RS485 communications were selected over other alternatives. It also details backward compatibility and retrofit scenarios.

These White Papers are very useful to systems integrators, OEMs, and Application Developers in both the Security and RFID channels. They are written for an executive level audience.

This Technology White Paper can be downloaded from the Secura Key website [www.securakey.com](http://www.securakey.com), by clicking “ABOUT”, “PRESS”, then selecting White Papers.

Requests for free printed copies of these informative documents should be sent to [marketing@securakey.com](mailto:marketing@securakey.com). Secura Key products are available through major distributors of security, access control, locking hardware and gate control equipment.

#### **About Secura Key**

For over 40 years, Secura Key has manufactured access control and RFID products. Reader technologies include contactless smart cards, proximity, and other leading technologies. Secura Key’s modern card/tag production plant is expert at packaging a wide variety of Access Control and RFID transponders, featuring 4-color digital graphics, custom form factors and encrypted data.

Secura Key’s manufacturing plant and general offices are located in Chatsworth, California. Further information on Secura Key is available at <http://www.securakey.com>.
